Sara's Smiles

We have the power to change the world. As landscape designers and builders, we change the physical world around us every day. We create beauty in untapped or unrealized spaces, we make old new again and create a canvas of expression for the homeowner to make a space their own.

Just as small touches can impact and personalize a garden, so too can they impact a life. Through the Sara's Smiles Foundation, the Burke family is working to change the way we fight pediatric cancer. By bringing positivity to light a dark place and brighten spirits, the foundation empowers children to live every moment to its fullest and most importantly, allows them to be who they are: children. Our garden captures this spirit of positivity and compassionate support for others in a physical space with new and exciting views at every corner. This garden expresses the hope for what will be next and the blossom of smiles that comes from simple acts of loving kindness.

The Power Plant

An abandoned mill and water wheel have been restored to serve as the inspiration for an environmentally beneficial landscape. A naturalized pond filled with native stone and aquatic plants offers filtration and an abundant habitat for wildlife. A native tree grove and meadow planting provide an organic backdrop for the mill. A quiet stroll through the meadow's path reveals a pollinators' paradise and bird sanctuary. Relics from the mill have been repurposed into new elements in this rehabbed garden space.

A View to a Garden

The natural timber pergola frames a view of a green oasis, offering a relaxing refuge from your everyday life. The fence panels and trees provide privacy, while the fragrance of the plants give off a pleasant aroma. The perennials and the annuals

display a rainbow of color to further enhance the calmness and mystique of the garden. The path leading off from the garden piques your imagination as to where it may take you.

Promise

Walk to End Alzheimer's events across the country feature the Promise Garden — a hands-on, mission-focused activity that allows participants to raise flowers representing their promise to remember, honor, care and fight for those living with Alzheimer's disease and their caregivers. The flowers highlight the diverse reasons for Walk participation and collectively create a dynamic, colorful and meaningful garden.

Promise is a garden of promise dedicated to my father-in-law who lost his fight to this devastating disease 7 years ago.

Laurel-Brook Gardens

Belleville, PA & Wilmington, DE

Contact: Joe Stitt, (484) 947-8263, laurelbrookgardens@gmail.com

In the cracks between 'Dead End' and 'New Beginning', all it takes is the tiniest seed of hope for a movement to take root. Just like the lowly but tenacious dandelion, which grows and thrives in the most unlikely of environments. It blossoms and sets its seed free to the wind; to a new beginning. We too can scatter seeds of hope and tenacity through greening projects and vacant lot reclamation to create a space for all to thrive.

Break Out

Found within an urban environment, this garden effortlessly combines plants and architecture into a place of community. Breaking out of the mold, it provides an experience that will invite visitors into a moment of reflection. Walk amidst massive tree sculptures and colorful garden features while venturing through an abundance of flowers. The various niches create many areas to gather and enjoy the beauty of community and nature.

Exhibit Installation: Stoney Bank Nurseries

All Along the Watchtower

Inspired by standing on the Woodstock stage, looking out onto a mass of revelers, this keyhole garden was designed to overwhelm visitors in a haze of purple and riot of textures created by the power of infinite flowers. Reflection tricks the senses to enhance the impact of the blooms, blur boundaries and offer viewers glimpses of themselves within the landscape, emotionally connecting everyone to the garden. The perimeter evokes the peaceful trance of the unspoiled land prior to the concert.

Unplug & Play!

Use your outside voice! Climb higher! Explore farther! Build better! Outdoor play is essential during childhood development: creating neurological connections in the brain, enhancing social skills, and strengthening the physical body. Connecting with nature establishes an understanding of how critically dependent we are on plants for food, water, air, and shelter. Unprogrammed play in nature has the power to enhance creativity, increase confidence, and provide learning opportunities. Unplug from the world wide web and connect with the great wide world!

Floralia & Tulipia

This exhibit honors the heritage of the Roman goddess Flora, a focus of spring celebrations ("Floralia") in ancient Rome, and the source of all words "floral" in our vocabulary, including "flower." The heritage of tulips ("tulipia"), colorful spring favorites, is equally extensive. Over centuries, tulips originating in Asia were developed into thousands of exotic varieties by Dutch geneticists. We are showing the inception date for each variety displayed, some rare and some centuries old.

Parsley, Sage, Rosemary, and Thyme

They say that an ounce of prevention is worth a pound of cure. For some that prevention comes from the peaceable pastime of gardening. For others that prevention comes from plants and herbs tended and cared for in an apothecary garden. Herbs can be used to create a bountiful supply of teas, salves, tinctures, tonics, and other helpful remedies. The garden also provides a beautiful landscape full of relaxing views and calming scents.

Waldor Orchids

Contact: David Off, (609) 927-4126, waldor@waldor.com

Kaleidoscope

A variety of orchids and tropical plants arranged on structures of various shapes and sizes represent the diversity of the human race. Mirrors show how we can reflect each other and still retain our individuality. As you walk past our display, take note of how the perspective changes depending on your viewpoint. This is our attempt to encourage all of us to consider each other's view as well as our own.

WISH

Wilmington, DE

Contact: Chris Kanienberg, (610) 324-0365, wishchris@me.com

As the 50th anniversary of Woodstock nears later this year, this exhibit celebrates the psychedelia from the late '60s and poignantly represented at the iconic music and arts festival. A period-specific art object installation pairs with the textures and supersaturated colors of '60s psychedelia. Illusions of objects and different dimensions pepper the exhibit, which creates a sense of being off-balance, intoxicated by motion and acidic colors. Follow the white rabbit.

The Power of the Seasons

As the seasons change, so do our moods, behaviors, and emotions. Our five senses are connected and guided by nature's powerful and transformational influence.

Winter's stark subtle sparkle,
Spring's regrowth and excitement,
Summer's energetic freedom,
Autumn's joyful abundance,
Flowers have the power!

Milestones

Milestones refer to roadside markers that provide distance to locations. In life, a milestone defines a significant event or start of a new chapter. It's a moment to celebrate where you stand in life. Flowers lend power and meaning to these milestones. Celebrate with the Power of Flowers!

"Remember to celebrate milestones as you prepare for the road ahead."

-Nelson Mandela

"The more you praise and celebrate your life, the more there is in life to celebrate."

-Oprah Winfrey

Woodstock...A Renewal of Vows

Fifty years ago, during the Summer of Love, a wedding was held. Imagining a renewal of those vows on the 50th anniversary, and the celebration following, is depicted here. The farm scene, "Flower Power" in all its splendor, even the mud, transports us back to the summer of 1969. A generation of young people calling for peace, love and understanding found their voice. Fifty years later, that voice calls for celebration!

HAPPY TOGETHER

People & Flowers

HAPPY TOGETHER explores the connection between flowers and human beings. Throughout history, people have used flowers for celebrating, giving and remembering. From a simple bouquet to a modern floral installation, this illuminated story represents how the Power of Flowers makes people happy.

HAPPY TOGETHER unites the dedication and passion of flower growers and the creative talents of floral designers from around the world, sharing their joy with the visitors of the PHS Philadelphia Flower Show and reminding us that flowers bring people together.

Seeing Flowers

The wall structure and colors combined create a framework on which to notice and imagine flowers in a new way.

"I wanted the past to go away, I wanted to leave it, like another country; I wanted my life to close, and open like a hinge, like a wing, like the part of the song where it falls down over the rocks; an explosion, a discovery; I wanted to hurry into the work of my life; I wanted to know, whoever I was, I was alive for a little while."

Amber Apiology

Apiology is the scientific study of bees – especially honeybees. Did you realize that a bee can visit up to 5,000 flowers in a single day? To make one pound of honey, a hive of bees must travel over 55,000 miles and visit 2 million flowers. When they return to their hive, they dance to tell other bees where the flowers are. Honey is the only food source produced by an insect that humans eat.

Green Spaces in Wee Places

Rooftops, walls, containers, and raised beds provide versatile and practical options for growing variety in limited spaces while maintaining treasured open-air relaxation areas. With architectural enhancements and decorative floral boosts, these contemporary garden ideas yield hydrological benefits, reduce energy consumption, and provide urban agriculturists with a convenient, tangible, and sustainable link to food products. So dust off your sun hat, find your hand trowel, and let's explore the unlimited, lush possibilities.

Exhibit Designer: Tom Morris, J. Downend Landscaping,
tmorris@downendlandscaping.com

Natural Beauty

More than 1.5 million people rely on the Philadelphia Water Department to treat and deliver safe water. Often overlooked is the department's work to protect local rivers and streams. *Natural Beauty* explores how PWD restores urban streams and streambanks and works alongside nature using green infrastructure – harnessing the incredible power of flowers, trees and other plants to protect waterways. A PWD-funded Mural Arts installation is also featured, showcasing their efforts to use art to highlight nature and infrastructure.

Refugia Design, Ltd.

260 Haverford Ave, Narberth, PA 19072
Contact: Jeff Lorenz, jeff@refugiadesign.com

The Harmonic Landscape

Plants are active, complex lifeforms – creating and reacting to energy in our environment. They can smell, feel, and see.

This immersive sound exhibit gives plants a voice and visitors a chance to interact with them in a whole new way. With the aid of audio technology, we can listen in to this hidden world and translate their responses to light, proximity and moisture, revealing a new way to experience the power of plants.

Appreciating the natural environment as a living network of relationships informs Refugia's mission as ecological landscape designers.

Hip Haven: Hangin' Loose at a Home Refuge

You hip? In the '60s, social norms were a drag to the hip, who dug new ideas, styles, and expressions. Hippies created a counterculture, which appreciated the wonders of nature, community, individual freedom, and peace.

Our exhibit presents a hip home garden. We explore how to live more responsibly by

truly respecting nature. Plant textures, colors, shapes, and edges complement reclaimed materials. Grown or foraged foodstuff supplies an elevated refuge. A spring seeps. Fire warms. Get hip to it!

Herban Apotheka

For millennia, communities have gathered around the capacity of plants to heal, but the days where acres of land were available for gardens are gone. Today, the plants we have relied upon for centuries to heal our bodies have found a new home in city lots around pop-up structures, where they take on a new role: healing souls and bringing communities together. Ages later, the ancient greeting is more apt than ever: Salve – Be welcome and be well.

PHYTOREMEDIATION: Plants planted today, for tomorrow

Phytoremediation is the ability of plants to remove contaminants from the soil, using their remarkable metabolic and absorbing capabilities. There are seven ways through which various types of plants remove, transfer, stabilize, and/or destroy contaminants in the soil. The seniors of the Williamson College of the Trades Horticulture Program hope you are inspired by this exhibit to learn more about phytoremediation.

PLANT SOCIETIES

American Rhododendron Society, Greater Philadelphia Chapter

1070 Beech Hollow Road, Ambler, PA 19002

Contact: Linda Hartnett, (610) 940-4978, lindahartnett@gmail.com

Planting Rhododendrons from the Ground Up

Our exhibit demonstrates how to plant the rhododendrons available at your local nurseries. Follow our methods to ensure success with your spring and fall plantings. Colorful blossoms and healthy plants will be your reward!

Delaware Valley Fern and Wildflower Society

Philadelphia, PA

Contact: Leslie Morris-Smith, leslm5791@gmail.com

The Ins & Outs of Ferns: Choose Your Fronds with Care

In a shady, moist fern garden next to a colorful indoor fernery, our exhibit showcases ways to combine ferns with native ground covers and to select ferns that will thrive indoors. Familiar and unusual ferns will include the new 'Diamond' fern hybrid for indoors, a fern for rock gardens, and a resurrection fern in the outdoor garden.

A Feast for Your Senses

A beautiful garden engages all five of our senses:

- Sight: a pleasing landscape of colorful plants.

- Sound: the soothing ripple of running water, the song of birds.
 - Smell: the fragrance of flowers and garden herbs.
 - Touch: fuzzy, spiky, smooth or rough – every plant has its own texture.
 - Taste: fruits, leaves, roots, flowers, seeds – a delicious variety of garden produce.
- Relax and enjoy...

Whatever your garden style, a garden trough is the perfect accompaniment. In the Delaware Valley chapter, we find that well-drained troughs make great homes for plants, whether they are rare and difficult or everyday garden treats. We share the technique for making these small treasures, shown here within a large, bright star of flowers. Let little plants with showy flowers and great textures shine in special containers suited to their needs.

Philadelphia Cactus & Succulent Society

600 East Cathedral Road, Philadelphia, PA 19128

Contact: Paul G. Wesolowski, (267) 614-2989, pwesolowski@bmtc.com

The Centennial of The Cactaceae

Cacti are indigenous only to the Americas. But for 400 years they were categorized by European botanists – writing in Latin, German and French – based on plants brought back by explorers.

In 1919, the first English-language monograph on the cactus family was published. It was written by American botanists Nathaniel Britton and Joseph Rose, who had traveled throughout North and South America to observe cacti in habitat. The monograph of the Cactaceae extensively reorganized cactus taxonomy and is still considered a landmark study today.

Southeastern Pennsylvania Garden Railway Society

1527 Edgewood Road, Yardley, PA 19067

Contact: Antoinette Hoffmann, (215) 321-5298, prrmrsgg1@aol.com

Garden Railway

Enjoy a relaxing view of a backyard and delight in the serenity of flowers, trees, plants, a pond, and the motion of a backyard garden railroad. The SEPGRS backyard contains a two-track, g-scale railroad layout with model trains running through a small American

town in the 1960s, and a farm with outbuildings intermingled with flowers and plants that are representative of the Northeastern region. Worldwide, garden railways combine a love of model railroads with a love of gardening and, especially, a love of flowers. Flowers and garden railroads bring pleasure not only to those who build and operate them, but to those who view them.

EXHIBITION ONLY

Gardening for the Greater Good

Philadelphia, PA

Pennsylvania Horticultural Society

Take a fresh look at the garden. Every angle provides a new perspective and encourages each gardener to create beauty and impact in their own community. The Pennsylvania Horticultural Society (PHS) believes that gardening has the power to impact lives. Through its Vision 2027 Initiative, PHS will work together with gardeners across the region to strengthen communities leading to its 200th Anniversary.

To join this movement to garden for the greater good, please visit PHSONLINE.ORG

Exhibit sponsored by Bank of America.

Gold Medal Plants

Philadelphia, PA

Pennsylvania Horticultural Society

The PHS Gold Medal program recognizes exceptional trees, shrubs, perennials, and vines for the home gardener in zones 5-7, although many are hardy in a broader geographic range. Gold Medal plants are selected for their ease of care, hardiness, and ornamental attributes such as foliage, flower, superior form, and winter interest. The program is overseen by a team of knowledgeable experts from the landscape, nursery, and horticulture industries, ensuring that Gold Medal plants represent the very best species and cultivars readily available to the home gardener.

Hudson Valley Seed Company

484 Mettawahonts Road, Accord, NY 12404

Contact: Ken Greene, (845) 235-7514, ken@hudsonvalleyseed.com

The Art of Seed

The Hudson Valley Seed Company carefully saves, grows, and shares seeds — celebrating each seed's story through art. Each seed pack is by a different artist and unfolds like a flower into a quatrefoil. Using watercolor, oil, glass, ceramics, fabric, collage and more, our artists help tell the diverse cultural, historical, and contemporary stories of the unique varieties in our seed catalog. For this exhibit, we've matched the original art with its seed pack, seed story, and a specimen of the plant.

Ikebana International, Philadelphia Chapter 71

66 Aldham Road, Phoenixville, PA 19460

Contact: Donna Eroh-Rothstein, (610) 933-7136, cormurmur@aol.com

The Japanese flower arrangements in this noncompetitive, educational exhibition were created by students and teachers who are members of the Philadelphia Chapter of Ikebana International. Four schools are represented including Ikenobo, Ohara, Sogetsu and Ichiyo. This year's featured exhibit is presented by the Ikenobo School. Ikenobo is the oldest school of Ikebana and teaches both traditional and modern styles.

Longwood Gardens

1001 Longwood Road, Kennett Square, PA 19348

Contact: Dottie Miles, dmiles@longwoodgardens.org

Clivia Breeding at Longwood Gardens

Longwood Gardens launched its clivia breeding program in 1976. Thirty-five years after those initial experiments, Longwood introduced its first *clivia miniata* in 2011.

A late winter bloomer, clivia is a key feature of our conservatory displays, adding dramatic sweeps of shape and color that delight visitors and inspire plant lovers worldwide.

Longwood Gardens is one of the world's great horticultural display gardens, encompassing 1,083 acres of dazzling gardens, woodlands, meadows, fountains, 10,010-pipe Aeolian organ and 4.5-acre conservatory.

longwoodgardens.org

Pennsylvania Bonsai Society

9140 James Lane, East Greenville, PA 18041

Contact: Bob Mahler, (215) 432-4982, bob@kifubonsai.com

The Pennsylvania Bonsai Society, founded in 1963, was instrumental in forming the national group, The American Bonsai Society (ABS), in 1967.

As one of the oldest bonsai organizations in the US, we strive to: promote interest in and enjoyment of bonsai; make information available on the culture and history of bonsai; promote the collection and exhibition of bonsai; and, provide interaction between bonsai fanciers.

PBS is a non-profit organization with members from Pennsylvania, New Jersey, and Delaware. Since the beginning, we have maintained a close working relationship with PHS, a relationship that gave the region its first bonsai exhibit in 1964 and continues today with our presence at the PHS Philadelphia Flower Show.

Today, PBS continues in its leadership and commitment to the betterment of bonsai culture in America.

Philadelphia Society of Botanical Illustrators

412 Golfview Road, Wallingford, PA 19086

Contact: Pam Oakes, acornpam@aol.com

The Power of Plants: Myths, Legends and Lore

The Philadelphia Society of Botanical Illustrators strives to educate and promote botanical art through classes, lectures, and exhibitions. Our mission is realized through this juried show.

The challenge for our artists this year was to explore the various historical myths, legends, and lore in horticulture, society, and religion. Any flower, plant, tree, shrub, or fungi could be the subject. The artwork could be interpreted in any medium including watercolor, ink, graphite, gouache, oil, colored pencil, pastel, silverpoint, and mixed media.

NEW PLANT GALLERY

American Beauties Native Plants

1170 Old Lancaster Pike, Hockessin, DE 18707

Pollinators rule and American Beauties Native Plants – America's number one native plant brand – is excited to show how native plants in the home landscape can help anyone become a Pollinator Superhero! See how American Beauties Native Plants can give you the power to keep your pollinator friends healthy. Make your pledge at our Pledge Wall to become a native plant-fueled Pollinator Superhero. Beautiful American Beauties Native Plants are available at independent garden centers...let us show you where!

Hort Couture Plants

Daniels, WV

Contact: Jim Monroe, (304) 466-2660, jim@hortcoutureplants.com

Mindfulness moments with Aetna

Healthy body.

Healthy mind,

Healthy you.

Every day you can take steps towards a healthier you. For some, it's clean eating or working in a garden. For others it's practicing mindfulness or spending time with family and friends. Whatever you choose, we are here to help.

Healthy tip: Did you know that lavender has relaxing and healing effects?

Bartlett Tree Experts

Official Sponsor

P.O. Box 3067, Stamford, CT 06905

Contact: Kenneth J. Karp, (203) 323-1131, kkarp@bartlett.com

Bartlett Tree Experts has been a leader in scientific tree care since 1907. Their research and training guides professional arborists around the world. Please visit with the Arborist Representatives they have on staff, who will be happy to answer any questions you may have or schedule an appointment for a free consultation at your property. Tree doctors still make house calls!

Belgard

Official Sponsor

Atlanta, GA

Contact: Gretchen Turner, (770) 274-1236, Gretchen.Turner@oldcastle.com

Exhibit Design: Joe Raboine, Belgard Residential Business Manager

Exhibit Installation: Joe Palimeno, Ledden Palimeno Landscape Co.,
joep@leddenpalimeno.com

“Paving the Way” since 1995, Belgard continues to inspire and assist homeowners with what is needed to bring their outdoor living dreams to fruition. Only Belgard provides the ideas and tools to transform a vision into reality. The peace of mind that comes from locally made and nationally backed products has helped transform thousands of residential and commercial properties across North America.

This year the Belgard exhibit not only shows our breadth of beautiful products but does so with a nod toward the clean modular lines that are gaining in popularity throughout the nation. Attendees will be immersed in an outdoor space that features a fireside conversation area, raised planters, and an outdoor theater!

At Belgard, we set the standard for landscape design and innovation. Our team is committed to providing incredible outdoor spaces. Spaces to connect with family, friends, neighbors, and nature. Let us know how we can “Pave the Way” to your outdoor living dreams!

Green Mountain Energy

Official Sponsor

300 West 6th Street, Suite 1600, Austin, TX 78701

Contact: Natalie Gray, 512.691.6201

www.greenmountainenergy.com

As an official sponsor of the PHS Flower Show, Green Mountain Energy® is all about protecting the environment. That's why we offer customers clean energy plans and programs to make living greener a reality. Since 1997, we have prevented as much CO2 emissions as planting 6.4 million trees! And Green Mountain Energy helped fund a new solar project at the PHS Strawberry Mansion Green Resource Center, through the Green Mountain Energy Sun Club.

Main Line Health

Western Suburbs of Philadelphia, PA

Cultivating Wellness from the Ground Up

Main Line Health respects the connection between nature, nutrition, and wellness.

The Delema G. Deaver Wellness Farm at Lankenau Medical Center harnesses the power of locally grown food to strengthen our community's health and to emphasize the role of healthy foods in preventative care.

At the Sydney Thayer III Horticultural Center at Bryn Mawr Rehab, patients, along with horticultural therapists, work with plants to improve mobility, coordination, balance, endurance, memory and socialization skills in a natural, therapeutic setting.

Subaru of America

Premier Sponsor

2235 Route 70 West, Cherry Hill, NJ 08034

Contact: Abana Jacobs, (856) 488-3944, ajacobs@subaru.com

Exhibit Design: Ledden Palimeno Landscape Co.

Subaru and Sustainability

Main Exhibit

Mid-century modern architecture and sustainable use of nature's resources are what you will experience as you enter the garden. The structure provides shelter for the largest member of the Subaru Family, the all-new, *2019 Subaru Ascent*.

Learn how rainwater is repurposed with the use of rainwater harvesting and with the use of permeable turf joints. The harvested water can be used in perennial planting beds, which help provide a habitat for birds, bees and butterflies. The sounds of the water provide a cool, soothing effect for hot summer days.

Concourse Exhibit

In keeping with the '60s theme, this is our "Upcycled Hippie DIY" garden. The *2019 Subaru Crosstrek* is at home in this creative gardener's outdoor retreat.

Why discard items when you can create works of art from them, while avoiding filling up your local landfills? Grab a card with DIY instructions on how to make some of the items on display, which are integrated into this fun and functional garden. Learn more about how Subaru retailers across the U.S. are collecting hard-to-recycle waste at their retail stores and are turning this waste into furnishings to be donated to their communities.

Xfinity

Official Sponsor

Contact: Jennifer Bilotta, (267) 443-0427, Jennifer_Bilotta@comcast.com

Exhibit Design: Pennsylvania Horticultural Society

Exhibit Installation: Irwin Landscaping

Naturally Connected

Xfinity presents a patio that is more than just serene, it's smart. Among the landscaping and planters filled with flowers and shrubs, you'll find Xfinity Home security cameras, door and window sensors, and other smart devices that can all be managed through the Xfinity Home app. Xfinity xFi pods extend reliable WiFi coverage to hard-to-reach areas, like the backyard; while the Xfinity X1 voice remote puts cameras, WiFi passwords, music and more just a voice command away.

Want to see these industry-leading products in action? Just ask! Come visit us near the Horticult!
